EQUALITY AND DIVERSITY

Our Commitment to You

Choices is committed to equality in our service development, accessibility and delivery. This approach also extends to how we work with our suppliers, contractors and partner agencies.

However we acknowledges that discrimination and prejudices exist. As an organisation we want to ensure that no-one working with us; receiving our services; or applying for housing or any other of our services is discriminated against on the basis of their race, colour, nationality, ethnic or cultural origins, disability, gender, marital status, sexual orientation, political or trade union affiliation or age (although it should be noted that housing and support services may be restricted depending on the nature and objectives of the provision or service).

Our housing application process is underpinned by our organisational approaches to equality and diversity.

As an organisation specialising in the provision of services to people with a disability we understand the importance of recognising and valuing difference; being inclusive and treating people as individuals.

We believe equality and diversity is central to everything we do and especially in the services we provide to our customers.

Assistance with the Application Process:

We will assist you in anyway we can with your application for housing.

We will make the Application Form and Guide available in any format or language and if you so wish one of our Housing Support Officers will meet with you and complete the form with you.

Remember we are here to help.

section 1

about me

name
address

postcode tel
date of birth

the person
helping me with this
form is

name
address

postcode tel

this person is a social
